

Competence Management Certification

Are you on top of your present and future competence needs? Are you capable of turning competence goals into business results? DNV is now offering certification of competence management systems globally.

Features

- Head office and shipboard focus
- Periodical audits
- Focus on system set up and robustness
- Ability to monitor competence levels and needs
- Check of capability in linking business goals with competence
- Check of actual competence onboard
- Audits in conjunction with ISM/ISPS reducing load on key personnel

Benefits

- Achievement of business goals/KPIs
- Stronger ability to succeed in competitive trades
- Increased operational stability and better protection of assets
- More focused recruitment and training efforts
- Maximum return from training investments
- Continuous focus on competence despite daily fire fighting
- External assurance and strengthened relations with cargo owners, insurance providers and authorities.
