

# Get a clearer picture of your ship

Be in control of your ship's condition with Hull Integrity Management; don't leave things to chance

Keep continuous control of your ship's hull condition and create business advantages. Charterers notice better maintained vessels, maintenance costs drop, accident risk reduces, and compliance with regulations and standards is easier to achieve. DNV's unique hull expertise and procedures for planning and follow-up of inspections are combined with new, easy-to-use Nauticus tools. This represents the proven innovation of DNV's Hull Integrity Management!
